

## TARIFF MATTERS WOUND UP

**Senate Sweeps Decks Clean of All Questions on Important Duties**

## HOUSE WILL CONCUR

**Republican Insurgents Euchered Out of Political Capital They Have Been Accumulating.**

Washington, D. C., Aug. 18.—In one of the most remarkable exhibitions of political jugglery and parliamentary finesse witnessed in the senate in many a day the necromancers of that body yesterday afternoon effectively disposed of all tariff legislation for the present term.

The Senatorial decks were swept clean of all matters appertaining to the customs duties upon imports.

It was another illustration of the fact that the senate can do things with a promptness which is startling when it resolves to do so and when senate leaders make up their minds that they are going to adjourn the session.

Only the method which was adopted yesterday was a bit unusual and unexpected. Nothing remains now to wind up the affairs of the extraordinary session except the concurrence of the house, and that may be given Saturday. The house situation is in the hands of Chairman Underwood and he is disposed to join in the movement.

Both he and his party have everything to gain politically by doing so. The joke of yesterday's transpirings is upon the Senate insurgents. They have not only been euchered out of the political capital which they have been endeavoring, under the leadership of Senator La Follette, to accumulate, but they have been left marooned between the deep sea of Democracy and the devil of standpatism.

The senate Democrats after four hours of conference Thursday afternoon, practically decided to follow the same course with respect to the cotton bill as they did on the wool and free list bills, which was to vote solidly for the house measure, and failing to corral enough insurgent votes to secure its passage, to turn in and vote for the La Follette substitute.

The program even went so far as to include a decision to adopt the Cummins amendment to the measure, revising the iron and steel schedule of the tariff law. The agreement was not satisfactory to many of the Democrats, and some of them, notably Senator Johnston, of Alabama, left the conference in a huff.

While the negotiations with the insurgents had been informal, there was a tacit understanding with the followers of La Follette as to what was to be done. All was calm and serene in the chamber, when the Alabama senator, who rarely says a word, but thinks a great deal, quietly slipped across the center aisle of the senate and made a few brief remarks sotto voce to Senator Penrose, the titular Republican leader. The Pennsylvania Senator nodded, for he, too, is a man of few words, and the deal was on at once.

What the Alabama senator said to the Senator from Pennsylvania, according to the statement made with much resentment and bitterness by Senator Bristow, of Kansas, who happened to overhear it, was that the Republican regulars should absent themselves from the chamber and permit the Democrats to pass their own bill as they saw fit and thus allow it to go to the president and wind up the whole tariff matter.

The suggestion was immediately agreed to by Senator Penrose, well knowing as he did that whatever sort of a measure the Democrats should pass would be promptly vetoed by the President.

When the cotton bill was laid before the senate there was no one ready to speak, and in consequence the vice-president put the question (Continued on Page 9, Col. 1.)

## MADLINE GETS TWO MILLIONS

New York, Aug. 18.—Nineteen-year-old Madeline Force will get \$2,000,000 in cash when she marries Colonel John Jacob Astor but she will have to sign away all her dower rights in the enormous Astor realty holdings which comprise a large portion of Manhattan Island. The cash settlement is a rule in the Astor family designed to keep the realty holdings intact for the males.

Extent of Strike in the British Kingdom.

IN LONDON.  
Railroad employees out, estimated at 90,000.  
Car men out 22,000.  
Transport workers, dockers, coal porters, out 25,000.  
Women's union strikers, out 15,000.  
Teamsters out 8,000.

IN LIVERPOOL.  
Dockers and freighters locked out, 28,000.  
Car men out, 8,000.  
Scavengers, carters and porters out, 10,000.  
Total 205,000.  
Besides these it is estimated that 100,000 have thrown down their work owing to the tie-up of transportation.

London, Aug. 18.—With the rifles of the British army and the muzzles of the great guns of the navy turned against them, British labor, engaged in a struggle for living wages and human working hours, presented an unaltering front today while there was an undisguised consternation in government and capitalistic circles.

Labor leaders declared the response to yesterday's strike order has far exceeded their expectation and they assert that within three days all means of transportation in the kingdom will be tied up. Government officials admitted today that within six days, without transportation, actual starvation will prevail in four-fifths of the homes in all the larger cities of England.

London, August 18.—The first conflicts in the greatest labor war in the world's history took place in many parts of the United Kingdom last night. Great bodies of troops are moving across the country in every direction. All efforts to effect a settlement have failed.

London resembles a great military camp. Twelve powerful machine guns with 15,000 rounds of ammunition, have been wheeled into the streets where serious trouble is most likely to occur.

Encampments are being made on every available open space. Troops are still arriving.

At Aldershot 15,000 soldiers were loaded on 22 trains. The authorities refused to make public their destinations, but a large proportion of them have come to London and are encamped in the parks and near the railway stations.

Four thousand infantry are in Victoria park, in the east end of London, and center of its most turbulent population.

Three thousand infantry are raising tents in Regent park, another 3,000 in Hyde park.

## DIES SUDDENLY WHEN WIFE SUES FOR A DIVORCE

Louisville, Ky., August 18.—The body of Major David Castleman, whose sudden death in a Los Angeles sanitarium following his learning that his wife had filed suit for divorce, is expected to arrive here today. Relatives here have not yet completed arrangements for the funeral.

Major Castleman was the son of General John B. Castleman, of this city. His wife was Ada Bailey, a famous blue grass beauty of Lexington. She filed suit last week.

## CONGRESS HAS PASSED NEWARK P. O. BILL

**Mr. Ashbrook's Special Act Provides for Sale of the Sherwood Site—Appropriation \$190,000 for Newark Building—Where Shall It be Located?**

Through the energetic efforts of Representative Ashbrook, Congress has just paved the way for the erection of a handsome and commodious federal building in Newark.

Mr. Ashbrook introduced a bill in the house after securing a favorable recommendation by the House committee on public grounds to sell the Sherwood site and apply the sale price towards the purchase of a larger and better building site. The measure was promptly passed by the House and Mr. Ashbrook then secured the assistance of Senator Pomerene to have the bill taken up and passed by the Senate, the result being announced in the message just received by the Advocate.

"The senate passed my bill yesterday afternoon authorizing the sale of the Sherwood site, thanks to the prompt attention of Senator Pomerene."

W. A. ASHBROOK  
Congress first appropriated \$90,000 for a federal building in Newark. After much effort to interest property owners in the project, several sites were offered but the size of the appropriation limited the government in the purchase of a site. Finally, just before

the time when the appropriation would have lapsed by reason of failure to find an available site, the Sherwood lot was purchased for \$18,500. When plans were drawn for a building costing approximately \$71,500, the remainder of the appropriation, it was found that the proposed building would not provide for the needs of a postoffice in a growing city of Newark's size. Then an additional appropriation of \$100,000 was secured but a ruling of the department prevented the government from acquiring a new and larger site without disposing of the Sherwood site and this could not be done without a special act of congress.

It was then that Mr. Ashbrook got busy and the foregoing telegram is the result.

Newark is now in position to go ahead. The new law permits the sale of the Sherwood site and the purchase of a new location where a fine federal building will be constructed. Where will that building go up? What sites will be offered? Here is a proposition that can well be taken up by the Board of Trade and by citizens who own centrally located property that may be available for the new postoffice. A well located, that is a centrally located site of sufficient size, should be secured without delay.

Our representative in Congress, Mr. Ashbrook, has acted promptly in Newark's interest and Newark now, thanks to him, is in position to have the work started providing a suitable lot can be found and purchased at a fair price. Where shall Newark's new postoffice be located?

## WILD SCENE IN HOUSE OVER THE WOOL VETO

Washington, Aug. 18.—Amid wild scenes the House this afternoon attempted to overthrow President Taft's veto of the wool tariff revision bill. A thunderous attack was made on the president by Representative James of Kentucky and the Democratic side of the house rocked with applause as Representative Austin of Tennessee, again sprang the boom of Speaker Clark for President James' attack on the president was one of the most bitter in the history of the House. "He will go down in history," he shouted, "as one president who has placed his vote against the will of the American people. The people trusted him in 1908, when as the Republican candidate for Pres-

ident, he promised the tariff revision downward. The President called congress in extra session and it passed the Payne bill a bold betrayal of the people's interest." He signed it. Later he declared the wool schedule of the bill was indefensible, but now he votes a bill that would cheapen woolen clothing to the shivering poor of the country."

Representative Austin, (Rep.) of Tennessee, landed the right of the veto and landed the President for his courage in crossing the way of the dangerous majority in this house. Austin spoke of the Clark boom for president and for five minutes the house was in uproar. Democrat and Republican rose to their feet shouting and pounding their desks.

while Clark bowed repeatedly from the speaker's chair.

Representative Moore, (Rep.) of Kentucky, also spoke in support of the president. The Democrats cheered wildly when Representative Lenroot, (Rep.) of Wisconsin, took the floor in defense of the bill. He was the first insurgent to declare for the passage of the measure over the president's veto. He said that no veto should be allowed to stand when the president explained, as Taft did in his message, that he "had no facts before him on which to judge the accuracy of these rates. No president should exercise the power of veto unless he knows the bill vetoed is wrong." Lenroot appealed to the progressives who supported the bill to vote for it now.

## STATE LEADERS FAVOR HARMON

Detroit, August 18.—A finish fight between supporters of Governor Wilson of New Jersey, and Governor Harmon of Ohio for delegates from Michigan to the 1912 Democratic National convention, is prophesied today. John J. Gifford of Newark, N. J., president of the Woodrow Wilson league, after a trip throughout the state, asserts that three-fourths of the voters regardless of politics, favors Wilson for president. Prominent Democratic state leaders, however, are said to be strongly in favor of the Harmon candidacy.

## LATTER DAY SAINTS AT KIRTLAND, OHIO

Kirtland, O., August 18.—Members of the reorganized church of Jesus Christ, Latter Day Saints started to flocking into Kirtland Wednesday for the seventy-seventh anniversary celebration of the dedication of the huge old temple by Joseph Smith, Jr. The temple was the birthplace of the Latter Day Saints, who afterward branched out into the great mormon empire of Utah.

Many church dignitaries will attend the gathering. Believers will sleep in tents, pitched about the temple.

## DRINK WAS AS BAD AS BOOTLEG WHISKEY

Indianapolis, August 18.—Three men are dead, one is dying and another is blinded for life at Whitesboro, Ind., today as a result of drinking a concoction prepared with wood alcohol, mistaken for grain alcohol.

Frank James, a cobbler is said to have mixed the drink. Whitesboro being dry, he gave a jug of it to Julius Dodson, Robert Hoop, Wm. Hoop and Ira Neese. James was the first man effected, being stricken blind. The two Hoops and Dodson died yesterday and Neese is now partially blind and cannot recover.

## TWO KILLED IN COLUMBUS WRECK

Columbus, Aug. 18.—One person, a baby, killed and 23 injured when a Big Four passenger train No. 40 from Cincinnati, due in Columbus at 11:40 was derailed at a Toledo and Ohio Central crossing just inside this city today. Two coaches were overturned and the passengers buried under the wreckage. All the ambulances in the city were called to the scene and the injured rushed to hospitals.

## PUZZLE OVER LIQUOR LAW DETECTIVES

Columbus, Aug. 18.—Attorney General Hogan is today puzzling over a legal question put to him by Wayne B. Wheeler, state superintendent of the anti-saloon league. Hogan recently knocked out with an opinion the law giving prosecuting attorneys the right to appoint their own detectives. This law repealed the old so-called liquor detective law under which a prosecuting attorney could appoint a detective to investigate liquor cases only. The anti-saloon league was vitally interested in the old law because evidence of liquor violations was gathered by these detectives. The new law being unconstitutional according to Hogan's recent opinion. Wheeler now wants to know if the old law is not in effect. "It is a knotty problem."

## FAMOUS WRITER TAKES OWN LIFE

Chicago, August 18.—The police are today attempting to locate James Sydney McCullough to notify him that his wife, Myrtle Reed, celebrated writer, is dead, a suicide. It is believed that McCullough can throw some light on the suicide. Mrs. McCullough killed herself last night leaving a note addressed to her maid which read "Dear Annie, I am leaving you a check for \$1,000 for your true and faithful service in four years. If my husband had been as good and kind as you, I would not be going where I am now."

Friends thought them happy and their home was called "Paradise Flat." Under the name of Myrtle Reed Mrs. McCullough wrote "Lavender and Old Lace," "Love Letters of a Musician," "Love Affairs of Literary Men," and many other well known works.

It became known, too, that the president will also veto the cotton bill with the proposed amendment revising the iron and steel schedule and the farmers' free list.

It was indicated that any tariff revision bill at this session would be vetoed.

The president, it was said, would go before the country in his messages and in speeches on his Western trip this fall and argue against what he would characterize as an unnecessary upsetting of business through revision of the tariff not based on information from the tariff board.

The house and senate disposed of the free list bill as agreed upon in conference and it was signed tonight by Vice-President Sherman and Speaker Clark. It was sent to the president today.

## WOOL BILL VETOED BY PRES. TAFT

**His Message Reached House Yesterday Afternoon With the Bill**

## REPUBLICANS CHEERED

**May Make Effort to Pass Bill Over President's Veto—Democrats Hope to Accomplish This.**

Washington, D. C., Aug. 18.—Republican applause that greeted President Taft's veto of the wool tariff bill as it was read in the house late yesterday, was followed by an outburst of Democratic cheers when Majority Leader Underwood announced that he would call up the bill today and move its passage over the veto.

The president's veto message reached the house while the roll call was being called on Mr. Underwood's motion to concur in the senate amendments to the free list bill. When the conference report on that bill in its final legislative stage was announced the reading of the president's message was begun, each member following the president's words from printed copies of the veto which had been distributed. When the reading was concluded Mr. Underwood arose.

"Mr. Speaker," he said, "I do not desire to ask that this message from the president be referred to the committee on ways and means. I ask that it lie on the speaker's table and give notice that I will call up the bill tomorrow, immediately after the reading of the journal and move to pass it over the president's veto."

Cheers and shouts from the Democratic members greeted the announcement. Representative Garrett of Tennessee, when quiet was restored, asked unanimous consent to incorporate in the record a portion of President Taft's speech at Winona, Minn., in the last campaign, in which he described the Payne-Aldrich wool schedule as indefensible. Republican Leader Mann asked unanimous consent to incorporate the entire Winona speech in the record, which was refused.

The Democratic majority today will make a determined effort to pass the bill over the president's veto. The Democrats have hopes that they will be able to do this. Representative Mann and other Republican leaders expressed confidence last night that this will be impossible. Representative Dwight, the Republican whip, has told the president that the majority will not be able to muster enough to carry the bill by a two-thirds vote. On the recent passage of the compromise bill if the house the vote was 206 to 9.

Many members of both parties reached Washington yesterday and all absentees are expected to be on hand today. The Democrats expect, with their full quota of members present, together with 30 Republicans who voted for the bill, that they can develop a two thirds majority. Republican leaders assert that many of the insurgents who voted for the bill will not do so over the president's head.

Before sending his veto of the wool bill to the house, the president held a conference with his cabinet. One member thought it might be best for the president to sign the bill, but he was finally won over to the other view.

It became known, too, that the president will also veto the cotton bill with the proposed amendment revising the iron and steel schedule and the farmers' free list.

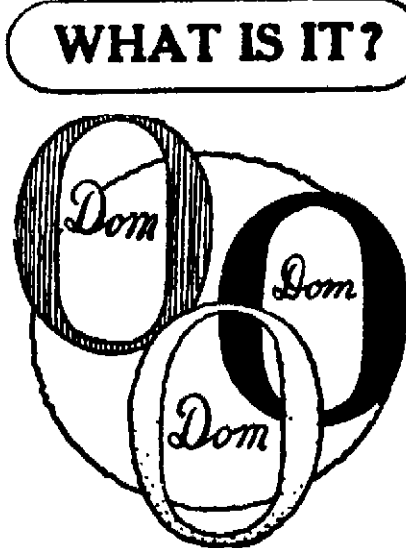

It was indicated that any tariff revision bill at this session would be vetoed.

The president, it was said, would go before the country in his messages and in speeches on his Western trip this fall and argue against what he would characterize as an unnecessary upsetting of business through revision of the tariff not based on information from the tariff board.

South Bend, Ind., Aug. 18.—Newark lost the first game of the series here yesterday to the former Evansville team. Withers pitched the game for the Benders and seems to have a hoodoo on Pender's boys. Had it not been for poor support, a no-hit game would have been annexed by the crack twirler. In a recent series with Evansville, Newark hit him safely for only six times. In yesterday's game, the Newark boys were completely nonplussed by his work on the slab, and the four hits credited were due in a measure to poor support. Gilbert worked for Newark and put up a good game, was hit only for nine safe ones. His delivery was timely buffeted by the South Bend club, however, and the hunched hits were good for six counts.

Heavy hitting was impossible as both pitchers were in fine fettle. The only effort that was good for extra bases was O'Brien's two-bagger. Some of the taps off Gilbert were rather fluky, his support being shaky in places. The sensation of the game was the fielding of Third Baseman Taylor. Up until the eighth inning the fielding of the locals was perfect. In the base-running, Pender was out-Pendered, Snyder and Hadley swiping advances for two stations each. The former made a wild dash for the plate in the sixth which was a feature of the game.

In the fifth and sixth innings, South Bend scored twice each. The game was already sewed up in the seventh, but Pender's lads made a valiant effort to save themselves from defeat. In the eighth, the elusive pellet was rapped hard and fast, but Withers squeezed

out with only one tally marked up.

St. Louis Claim Allowed.  
Cincinnati, Aug. 18.—The national baseball commission yesterday decided that the claim of the St. Louis club of the National League against the Terre Haute club of the Central League, was just, and ordered Secretary Bruce to apply any draft or purchase money that may pass through the office of the commission to the payment of the debt. Terre Haute had sold Player Hennis to St. Louis, but the player refused to report, and the deal was declared null. Terre Haute being ordered to refund the purchase price.  
The claim of Oliver A. Miller for pay due him by the New York American League club, was found to be groundless, as the club had paid him in full.

Mrs. Hukill states that the aeroplane was so near that the hum of the motor could be easily heard by the crowds gathered to see him alight.

STORM CAUSES DAMAGE.  
Zanesville, Aug. 18.—Seven barns, one of them belonging to Representative Alexander Smith, were burned, entailing a loss of \$15,000, and other property damaged to the extent of thousands of dollars last night in the worst storm of the season. The village of Gratot suffered a great deal of loss. The street car system was out all night. A C. & O. train No. 8, from Chicago to New York, crashed into a tree, which was blown across the track and the engine was derailed. No one was hurt.

What The Face Always Shows  
The sparkle in the face of the man who is successfully forging his way, whether he be poor or rich, is like the sparkle in the diamond. It is the sparkling of the five wires within him, the twinkling of his nerves, the coursing of pure rich vitalized blood in his veins, and this always shows in a glow of health in his face, his confident poise and expression. He can always do more work than he has before him.

If you feel tired all the time, are run-down, or suffer from Kidney or Liver Trouble, Sleeplessness or Rheumatism, Make-Man Tablets will do you more good than several months' vacation. A free trial sent on request to Make-Man Tablet Co., Dept. 18, Chicago. Sold at 40c and recommended by Evans Drug Store, Warden Hotel Block.

SAVED HIMSELF FROM BAD INJURIES  
W. E. Stevens, of 193 Maholin street, an employee of the Wehrle Store Works, had a narrow escape from death on Wednesday. He was operating a polishing machine, when his clothing caught in the machinery, and he was slowly being drawn to his death when he succeeded in tearing the clothing from his body, thus freeing himself from the machinery. He escaped with a cut one and a half inches long on the chin, a badly scratched face and a few bruises. Mr. Stevens has been in the employ of the Wehrle company for the past six years.

Dozen Clubs Seek Services of Cy Young  
Cleveland, O., Aug. 18.—Cy Young has at least a dozen offers from minor league clubs for his services. He received the greater share of them by wire before noon Wednesday. He is still considering where he will pitch, but has made up his mind to accept an offer from a minor league club if unable to catch on with some other major team.

Cheney May Go to Cubs.  
Louisville, Aug. 18.—Owner C. W. Murphy of the Chicago National League ball team spent yesterday afternoon here conferring with William Grayson, owner of the Louisville club. It is rumored that Murphy is to send Chicago to Louisville in return for an option on a player or two. Larry Cheney, who has pitched sensational ball for the local club, is reported to be booked for an early delivery to the Cubs.

Cincinnati Reds Buy Lessard.  
Officials of the Columbus Baseball club last night announced the sale of Pitcher Tom Lessard to the Cincinnati club, to be delivered at the close of the American Association season. The price was not stated, but the local officials are not after real money, as players will be taken in payment for Lessard if they can be obtained.

An English economist has evolved the theory that the writing and printing of superfluous books form a serious item in the deforestation problem of the civilized world.

## ZEUBER'S WEEKLY SPORT LETTER

Cincinnati, Aug. 18.—Will the Pittsburg club secure \$22,500 worth of service out of Pitcher Martie O'Toole, who recently was purchased for that sum from the St. Paul club, of the American Association? The advertising the club and O'Toole have received since the conclusion of the transaction are worth thousands of dollars to the Pirates; and if the red-headed twirler, who poses on one toe, like a ballet dancer, before delivering the ball, makes good, it will not take many games to bring back to the Pirate strong box the coin paid for him. It was figured that during his first season with the New Yorks, when he pitched such phenomenal ball, Christie Mathewson increased the receipts of the club by \$50,000. O'Toole can do as well for the Pirates—if he pitches as good ball as Matty did that first year. Cincinnati fans will probably have an opportunity of judging on Sunday, September 3, when O'Toole is slated to work against the Reds in the first Sabbath Day contest after their return from the East.

The \$22,500 paid for O'Toole tops by \$11,500 any price heretofore paid for a ball player. The previous high mark was \$11,000, which New York paid to Indianapolis for Duke Marquard, south-paw twirler, and which he hasn't brought back at the gate as yet, although he's been a Giant for three years. Ten thousand dollars has been quite a common price for some time. The first "Ten Thousand Dollar Beauties" were a Ke Kelly and John Clarkson, a battery bought in installments, was secured by Boston from Chicago. In more recent years the Cincinnati club sold Cy Seymour to New York for \$16,000, and the Giants also paid that amount to St. Louis for Spike Shannon. Minor leaguers who have commanded large prices in recent years are Blackburn, shortstop, whom Comiskey bought from Providence for \$5,500 and two players, and Ruben Benton, who cost Cincinnati \$5,500 and then failed to stick. However, he'll be back this fall and may be seen in the game against O'Toole on September 3.

Cincinnati promises to get strongly into the national sporting limelight during the week of September 4, two important events being scheduled for that week. The first will be a series of motor boat and rowing races on Friday, September 8, in which the leaders in their respective lines in the Ohio Valley will compete. The motor boat race will be made doubly attractive by the presence of the Reliance III, and Reliance IV, two hydroplane boats owned by John J. Ryan, and built with making from 37 to 40 miles an hour on the Great Lakes recently. Both boats will give exhibitions of speed, and may be seen in a contest with Hooker Boy, the fast boat owned by Commodore Whitlock, of Hising Sun, Ind. The other event will be a series of automobile road races, to be held on Saturday, September 9, over seven miles course, the distances being from 125 to 250 miles, with the leading drivers of the country competing. Both events will be free to the public, being given in connection with the celebration in honor of the completion of the Fern Bank Dam.

Havana is to have a real race course, controlled by Americans and stocked with some of the best horses American can produce. A company has been formed, with "Curley" Brown as manager, and now is engaged in constructing a mile track that is expected to rival the best this country ever has.

## S.S.S. FOR SCROFULA

### NATURE'S PERFECT CURE

Swollen glands about the neck, weak eyes, running sores and abscesses, pale, waxy complexions and frail, poorly developed systems, are the most usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs that from birth the disease shows its presence. In other cases it is held in check during young, vigorous life, but when the system begins to weaken, especially after a spell of sickness, the disease will often manifest itself in some form. S.S.S. is Nature's perfect cure for Scrofula, made entirely of healthful roots, herbs and barks, a perfectly safe medicine for young or old. S.S.S. goes into the circulation, and drives out all scrofulous matter, and supplies the blood with the healthful qualities it is in need of. In this way it builds up weak, delicate persons and makes them strong and healthy. Book on the Blood and medical advice free. S.S.S. is for sale at drug stores. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Mr. and Mrs. Charlie Yowell very charmingly entertained friends Sunday at their country home on Route No. 6. Those present were: Mr. and Mrs. Jesse B. Snelling and daughters Misses Ada, Helen and Edith of Newark, Miss Wahneta Sayers of Jackson-town, Mr. and Mrs. John Vickers of Hebron.

The Marple family reunion was held Wednesday, August 17, in the Parson grove, two miles west of Utica. The following with their families were present: Byron Parson, Silas Anderson, Freeman Anderson, William Kirkpatrick, Albert Smoots, Meyhugh Marple, also Mrs. O'Connor and son, Mrs. Wilson, Mrs. Lamson, Mr. and Mrs. Charles Porter, Mr. and Mrs. Simon Haas, Mr. and Mrs. Earl Marple, Mrs. Lettie Dunlap and two children, Mr. Syrus Marple and daughter, Mr. and Mrs. J. W. Fisher, Mrs. Lida McMillen, George Samson and two children of Chicago, Mrs. Wright of Rushsylvania, Mr. Carr of Columbus, and Miss Wright of Michigan.

The Hillard Girls reunion held this year with Mrs. J. Ed Landrum, was attended by about twenty-five Hartford High school girls of the years when J. V. Hillard was superintendent. A jolly crowd were they, coming from Columbus, Newark, Granville, Johnstown, Appleton, Sunbury and Croton. At the noon hour all were invited to the dining room, led by the grandmothers, there to enjoy a feast of good things. After dinner all gathered in the parlors where a very interesting program was listened to. At

the close of the program all were once more summoned to the dining room where delicious watermelon and cream cones were served. This fun-loving crowd will hold their reunion next year at Granville, entertained by Sallie Corbin Case and Bertha Hill Whitehead.—Centerburg Gazette.

The Misses Marguerite and Mary Stare of North Fifth street, who are visiting Mrs. Anthony Padden in Lancaster, were among the guests of honor at a moonlight picnic and dance given by Miss Mary Quirk at Rising Park Wednesday evening. The affair was given in honor of a number of out of town guests who are visiting in Lancaster.

Camp K is enjoying a very pleasant week camping at Stadden's Bridge. They are enjoying the very best of times. The members are Mr. and Mrs. Frank Reel and daughter Mary, Mr. and Mrs. Charley Markham, Miss Edna Striet. They have had as their guests during the week Mr. and Mrs. Ed Striet, Mesdames Schaffer, Collins, and Keaga and Misses Helen Bryson, Marie Christoffersen and Myrtle Bryson.

The neighborhood girls, friends of a fall bride, wishing to give her a shower that would really be practical (as the bride is an orphan dependent upon herself) decided on this pretty scheme. They called it a rainbow shower, and it was held on the lawn. The table was set under the branches of a great spreading maple, and from the shades in twenty-inch-wide garlands of tar-

EAST INDIAN COSTUMES THE LATEST CRY IN PARIS.

Since the visit of the East India n potates to the Coronation in June, East Indian costume effects have become the rage. Of all the Oriental types of costume the East Indian is the most pleasing, for colors are soft and rich without being garish and materials are especially graceful. Fringe plays an important part and short, hip-length tunics girdled with a knotted and fringed sash are a feature of such costumes. The frock pictured has a blue crepe de chine petticoat trimmed with fringe and a little tunic coat of cream chiffon embroidered with a "tree of life" design in blue and green floss.

tan, making a delightfully graceful and dainty canopy, says the Chicago Record Herald. The centerpiece was a gilded pot filled with hundreds of bright new pennies just from the mint. Each guest gave a dollar in pennies, and the hostess led the honored guest a long, round-about path, telling her she was to search for the proverbial pot of gold at the end of the rainbow. The place cards were tied to cunningly little umbrellas and the souvenirs were wee watering pots.

Another way to carry out this same party would be to wind a cobweb of rainbow-hued cords over the ground; have a little souvenir on the end of each guest's string and the "pot of gold" at the end of the bride's.

Mr. and Mrs. J. J. Carroll will entertain the members of the Evening Bridge club at the Country club Monday evening out of compliment to Mr. and Mrs. Walter Cooney of Lima.

About fifteen couples of the younger members of the Country club enjoyed an informal dancing party at the club house Thursday evening.

Miss Florence Beckel entertained with a dinner of pretty appointments at the Country club Thursday. Miss Beckel's guests were: Mr. and Mrs. W. S. Weiant and Miss Marion Weiant, Mrs. Ogden and Miss Marion Ogden of Granville, Mrs. Butler, Mr. and Mrs. Emmett Baugher and Mr. and Mrs. Charles McGruder.

Mrs. A. G. Wyeth was hostess to the members of the Thursday Bridge club at her home in Granville street on the club day. Golden glow and petunias were used in profusion throughout the rooms, making a very pretty appearance.

There were four tables of players. Mrs. Kemper Scott receiving the guest prize, while Miss Mame Smucker and Mrs. Will Davis, Jr., were the recipients of the club prizes.

At five o'clock a dainty buffet luncheon was served the members of the club and the following guests: Mrs. Sadie Rosebraugh, Mrs. Fred Wright, Mrs. Ralph Wyeth, Mrs. Fred Wright, and Mrs. Charles Sowersby of Chicago, Ill.

Miss Edna Wise entertained with a very pretty bridge party at her home on High street, Thursday afternoon. Miss Wise complimented her house guests, the Misses Ada and Ethel Hitt of Chicago, Ill. Six tables of players enjoyed the hours and at the close of the afternoon, Miss Ann Davis and Miss Lillian Miller were the winners of the trophies.

At five o'clock a course luncheon was served at the card tables, which were pretty with their decorations of golden glow.

Those enjoying the hospitality of Miss Wise were: Misses Hitt of Chicago, Misses Ann Davis, Clara Scott, Lillian Miller, Bertha Fulton, Adelaide Jones, Bertha Latimer, Katherine (Continued on Page 4, Col. 5.)

## Mr. Axline's Daughter A Reader of Note

The Bellefontaine papers contain extended accounts of a most successful Chautauqua that is being held at Orchard Glenn, near that place, and among the list of entertainers, speaks in the highest terms of Mrs. Bell, wife of C. W. Bell, manager of the Chautauqua. Mrs. Bell is a Licking county woman. She was Miss Daisy Axline, daughter of J. S. Axline of Summit Station, before her marriage to Mr. Bell. She has attained quite a reputation as a Chautauqua reader and is being enthusiastically received wherever she appears. She is of a very modest disposition, but such talent as she possesses cannot be hidden under a bushel very long. She is in great demand wherever her worth is known.

**Recipes for August 19.**  
Stuffed Cucumbers—Pare four good sized cucumbers, cut each in half and remove the seeds with an apple corer. Put one quarter of a cupful of milk and two tablespoonfuls of stale bread crumbs in a saucepan and cook slowly until the milk is absorbed. Mash smooth and add one-half of a cupful of finely chopped veal or chicken, one half of a teaspoonful of salt, a dash of cayenne, ten drops of onion juice, one tablespoonful of melted butter and one well beaten egg. Stuff the cucumbers with this mixture, packing it in as compactly as possible. Arrange the min a stew pan, ends up, pour over them three cupfuls of seasoned veal or chicken stock, cover and simmer for forty-five minutes. Pour off the stock into another saucepan, thicken it, add one teaspoonful of lemon juice and more seasoning if necessary.

Iced Cocoa—For each cupful allow one teaspoonful of cocoa and one teaspoonful of sugar. Mix and reduce to a paste with a little boiling water or milk. If wanted rather rich, use all milk, otherwise take equal quantities of milk and water. Stir the hot liquid gradually into the paste, strain into a saucepan and bring to the boiling point, then set aside to cool. Pour into a bottle and set close to the ice for several hours before serving. If desired frapped, put it in a can and surround with pounded ice and salt, stirring occasionally until it is as thick as mush. Serve in small cups with or without a little whipped cream.

## Heart and Home Talks

by Barbara Boyd

Gives Some Reasons Why Bachelors Are Often Pessimists.

**I** DON'T wonder some bachelors get sour and morose," said the Candid Girl.

"Yes," said the widow, "they need a woman to keep their heart young and tender."

"Seems to me," said the Candid Girl, "the trouble is there's too much woman. That's what makes them pessimistic. If I were a bachelor—well of course, it's a difficult position."

"What were you going to suggest," inquired the widow.

"I was merely thinking of the letters they get," said the Candid Girl. "Girls write them under the flimsiest pretext, or without pretext. And when they don't get an answer, they write again, saying they fear their first letter miscarried. A bachelor's mail is a revelation of the foolishness of feminines. If a bachelor could be induced to tell what he really thinks of these letters, it would be interesting. But of course, he's too honorable. Only sometimes, you can tell a lot by the queer little smile on his lips and the way he drops a letter into the waste basket."

"Then, if a bachelor could be induced to talk, I think his conversation about the telephone calls he gets would be interesting. Sometimes, in a business office, I have heard a bachelor swear softly to himself when a girl has called him up and tried to make a date with him. And he looks so bored and sour when he gets back to his desk, after making all sorts of excuses as to why he can't come any night that week. It is things like that that turn a bachelor into a pessimist."

"Unless it makes him conceited," said the widow.

"Then, if he's the least bit attentive to a girl, he's afraid she and her family will begin to have anticipations."

"That is, if he's getting old and wary," said the widow.

"He just has to harden himself to what people say, and the hardening process never is good for anyone."

"Then," went on the Candid Girl, "everybody is pitying him on anniversaries like Christmas and Thanksgiving, and thinking how lonesome he is, when probably he is rejoicing in his peace and quiet."

"And he is expected to fling money around recklessly because he has only himself to think about, and if he doesn't he's thought stingy; whereas, nobody knows what he may be wanting to save money for. His lot isn't so enviable as may be supposed."

"Well, he doesn't have to be a bachelor, if he doesn't want to," said the widow.

"No, of course not," said the Candid Girl, "but what I was objecting to, was that if he did want to be a bachelor, it was a pity that conditions were often such as to make him a pessimist as well."

**Mineral Food.**  
It is the various compounds  
of the mineral elements that are  
so important in the processes  
of nutrition. So important are  
they that a school of medicine,  
biochemistry, has been based  
upon their administration. Iron,  
sulphur or phosphorus may be  
found deficient in the blood as  
indicated by symptoms, but you  
cannot furnish sulphur to the  
blood by drinking a solution of  
sulphur water. Mineral food  
must go through the vegetable  
or animal. If we want iron or  
sulphur we must eat lettuce,  
eggs, meat, peanuts or other  
nuts, wheat or cereals. The veg-  
etables, especially beans, lettuce,  
potatoes and nuts, are richest in  
the mineral salts. Nuts contain  
everything considered, the best  
supply.

**DEMOCRATIC  
CLUB TO MEET  
FRIDAY NIGHT**

There will be a special  
meeting of the Licking Dem-  
ocratic Club Friday evening  
at 7:30 o'clock. All Demo-  
crats of the city, who are in-  
terested in the Democratic  
party and want to see it suc-  
ceed, are urged to be present  
at this meeting.

**REGISTRATION DAYS**

Two registration days will occur  
before the primaries—Wednesday,  
August 30, and Friday, September 1.  
All new voters and those having  
changed residences since last voting  
will be required to register or get a  
transfer.

By adhering to the party promise  
not to run amuck, heedlessly and  
needlessly, and at the same time ef-  
fectively backing down the excessive  
and unjust tariff rates, the Demo-  
cratic majority has shown a san-  
nity and efficiency that has stopped  
its critics and compelled the applause  
of its party and the admiration of the  
country.

**Governor Wilson's Views.**

The chief feature of Harper's Week-  
ly for August 19th is a noteworthy in-  
terview with Governor Woodrow Wil-  
son by Charles Johnston. This inter-  
view will attract wide attention, for  
in it Governor Wilson expresses with  
his usual candor and independence  
some views on questions of state-  
manship and public policy which are of  
the highest importance and interest.  
Perhaps the most striking feature of  
the Governor's remarks are contained  
in this closing passage from the  
article:

"We came back, therefore, to lead-  
ership. Governor Wilson made it clear  
that the real leader is not the man  
who impresses his own wishes and  
views on others, but rather he who  
rightly hears and rightly interprets  
the finest and best public opinion. He  
gathers the general inspiration and  
brings it to a focus

"It is something like what Bagehot  
says of Sir Robert Peel," remarked the  
Governor: "It was not that he did ex-  
traordinary things, but that he did or-  
dinary things extraordinarily well. He  
is the true leader who interprets the  
general conscience rightly, and rightly  
makes it operative."

"In conclusion, I asked Governor  
Wilson whether there might not be  
some conflict between his view of  
leadership, inspiring as it is, and the  
accepted theory of American govern-  
ment, that the executive and legisla-  
tive powers be isolated and kept apart.  
To this the governor replied, and I  
find his reply profoundly suggestive:  
"Is that really the American the-  
ory? Was it not rather a departure  
from the first ideal, a departure be-  
longing to the day of lesser men? Did  
not Jefferson and Adams, and most of  
all, Washington himself, exert, and in-  
tentionally exert, an immense influ-  
ence on legislation? Is not that the  
true American ideal?"

A stirring and potent appeal. Then  
I asked the Governor whether, if his  
ideal was leadership, and if the true  
leader is he who rightly interprets and  
makes effective the general conscience,  
he did not bring everything back, in  
the last analysis, to the general con-  
science. And was not this a tremen-  
dous expression of faith in the honesty  
and righteousness of the general  
mind?

Governor Wilson replied:  
"Yes, necessarily so. How could it  
be otherwise?"

Democratic representatives in the  
various states, and in the smaller  
units, might profit much by observing  
the steady, substantial, progressive  
policy of the Democrats in the house  
of representatives at Washington.  
While there may be a just difference  
of opinion upon some of the details  
of their work, and while some may be-  
lieve they have not chopped off  
enough here, or perhaps, too much  
there, no one can fail to note that  
they have not swerved from a general  
policy of tariff reduction all along the  
line. Just now we are in the con-  
structive period of the 1912 Presiden-  
tial campaign, and the Democratic  
party is doing so much better than the  
country had really expected, during  
this trial term, that a Democratic  
president in the White House in 1913  
looms big and bright

Why does not the attorney general  
consider compatible with the public  
interests to inform congress whether  
the department of justice contemplates  
criminal proceedings against the to-  
bacco trust? Is the star chamber meth-  
od relative to the sugar trust frauds  
that occurred under the Roosevelt ad-  
ministration to be repeated under the  
Taft regime? Taft is an eminent law-  
yer, so are most of the members of his  
cabinet eminent lawyers. Is the prin-  
ciple of publicity and popular govern-  
ment to be stulted again, as in the  
monetary method of his predecessor,  
by inside arrangements and "diplo-  
matic" maneuvers which will shut off

the legislative branch of the govern-

Hon. Champ Clark, speaker, has  
made the prediction that even Penn-  
sylvania will go Democratic next year,  
and there seems to be very great rea-  
son for the prediction.

Economy in public expense, that  
labor may be lightly burdened, is evi-  
dently not a Taft policy. While the  
Democrats have been endeavoring to  
abolish every useless office in the  
house of representatives, President  
Taft has just made increases in the  
salaries of White House employees as  
follows: Rudolph Foster, assistant  
secretary, salary increased from \$3,000  
to \$4,000; C. C. Wagner, confidential  
stenographer to the President, in-  
creased from \$2,000 to \$2,500; H. P.  
Webster and F. M. Hendricks, expert  
stenographers, increased from \$2,000  
to \$2,500.

**WHAT TESTIMONY  
SHOWS IN WILEY  
INVESTIGATION**

Washington, Aug. 18.—The testimony  
of Dr. Harvey W. Wiley, pure food  
champion in his own defense to date,  
shows

Wiley hints at cabal in department of  
agriculture to hamper effectiveness of  
pure food law.

Testified Solicitor McCabe and Dr.  
F. L. Dunlap, members with himself on  
the "inspection board" were leagueed  
together as follows:

M McCabe rejected two-thirds of the  
proceedings under the pure food law  
recommended by Wiley.

Dunlap, associate chemist, changed  
his vote on about ten occasions in or-  
der to make a majority with McCabe.

Under orders from McCabe, who is  
not a chemist, denies against a pro-  
secution recommended by Wiley there is  
no way in which the case can be  
brought into the courts.

M McCabe is member of personal com-  
mittees and Dunlap as competent forced  
charges of irregularity against Wiley  
in the employment of Dr. H. H. Rusby.

Case against Wiley based on letter  
written by Rusby to Wiley, but never  
sent. Carbon copy this letter was filed  
by McCabe and incomplete letter put  
in evidence. Court records showing suc-  
cessful prosecution against manufactur-  
ers using benzene of soda changed by  
McCabe to keep knowledge from  
public of this conviction.

**OLD DOC WILEY.**

You can't speak too highly of good old Doc Wiley, the govern-  
ment chemist, our bulwark and hope, protecting our bellies from  
ketchup and pellics and all sort of things which are loaded with  
dope. He's dear to the taker; he chases the maker of fraudulent  
remedies, labeled with lies; he seizes the butter too rancid to utter,  
and puts the kibosh on the poisonous pies. Doc Wiley has throt-  
tled the sinners who bottled all sorts of cheap rubbish and labeled it  
pure, courageously, gaily, he's guarding us daily from dishonest  
merchandise and vitiated ham. It's true they are saving his tons of  
playing in front of the grand stand and beating the drum; but  
one who is doing the work he's pursuing would hurt and annoy us  
if he should be dumb. When news to us trickles that codfish or  
pickles were seized by Doc Wiley because they were punk, we list  
to his bell and bet half a dollar he'll clean up the takers who  
dealt in such punk. So here's to Doc Wiley! They treated us  
viciously by feeding us poison and gumbo and glue, they'd no ruth or  
pity, till Doc, wise and gutsy, pumped onto their persons and made  
them come through!

**HUKILL EBERT**

The home of Mr. and Mrs. Carl  
Ebert on Central avenue was the  
scene of a beautiful wedding Wednes-  
day evening when their daughter, Min-  
nie G. Ebert became the bride of Mr.  
Edmund Lee Hukill, son of Mr. and  
Mrs. E. T. Hukill of Newark. Flowers  
were artistically arranged throughout  
the various rooms with yellow and  
white predominating. The Rev. C.  
H. Herrmest of St. Paul's English  
Lutheran church, performed the cere-  
mony at eight o'clock, the young peo-  
ple standing in the parlor before a  
banking of palms combined with  
flowers. The bride wore an exquisite  
gown of white embroidered marqui-  
sette and her bouquet was a shower of  
roses.

An elaborate wedding dinner was  
served to about thirty guests among  
whom was the groom's parents, Mr.  
and Mrs. E. T. Hukill of Newark, Miss  
Mildred Monnett of Norwalk and Mr.  
Will Ebert of Cleveland.

Roses formed a lovely table decor-  
ation and the place cards were daintily  
handmade.

Mr. and Mrs. Hukill left for Chicago,  
Ill., and western points, the bride's  
traveling costume being of white, with  
white fall hat. —Sandusky Star-Journal.

**VATSURES GARRETT.**  
Mr. John Vatsures, proprietor of the  
Busy Bee confectionery store in the  
Arcade, sent home a telegram from  
Indianapolis Thursday night announc-  
ing his wedding. The message came  
as a surprise as Mr. Vatsures was sup-

posed to have gone to Indiana on a  
business trip.

The bride was formerly Miss Edna  
Garrett, daughter of Mr. William Gar-  
rett of Red Key, Ind. Miss Garrett has  
a large number of friends here as she  
was the pianist for some time at the  
Wonderland theatre. It was here  
about four months ago that Mr. Vats-  
ures met her and it proved to be a  
case of love at first sight. Mr. Vats-  
ures went to Red Key and accom-  
panied his bride-elect to Indianapolis  
where the wedding took place in a  
Greek church Thursday.

Mr. and Mrs. Vatsures will arrive in  
Newark Saturday and their friends  
are preparing to give them a cordial  
welcome.

**ENGAGEMENT ANNOUNCED.**

**DANDRUFF, FALLING  
HAIR STOPPED**

Harmless, Old-Fashioned Remedy  
Brings Back Color to Gray Hair  
and Makes It Grow.

How many old-fashioned remedies  
are being used, which goes to show  
that it is hard to improve some of  
our grandmothers' old-time, tried  
remedies. For instance, for keeping  
the hair dark, soft and glossy noth-  
ing equals our grandmothers' "sage  
tea." Although, by the addition of  
sulphur and other ingredients, this  
old fashioned brew has been made  
more effective as a scalp tonic and  
color restorer.

Nowadays, when our hair comes  
out or gets faded or gray, instead  
of going to the garden or garret for  
herbs and making the "tea" our-  
selves, we simply go to the nearest  
drug store and ask for a bottle of  
Wyeth's Sage and Sulphur Hair Rem-  
edy.

Druggists are authorized to sell  
it under guarantee that the money  
will be refunded if it fails to do ex-  
actly as represented.

This preparation is offered to the  
public at 50 cents a bottle, and is  
recommended and sold by all drug-  
gists.

## BLACK HANDERS BLOW MOTHER FROM THE BED

New Babe Escapes Uninjured Even When Buried Under Mass of Falling Plaster.

New York, August 18.—A mother and her new born babe were literally blown from their bed in the Beehive section of New York's seething east side yesterday. The outrage was committed by Italian blackhanders, enraged because a prospective victim had refused to pay tribute.

That both were not instantly killed was due entirely to the fact that the bed, in anticipation of the arrival of the original place to the front of the room. Because of the dastardly nature of the crime, Police Commissioner Waldo and Inspector Hughes took personal charge of the detectives trying to find the dynamites.

The woman was Mrs. Jennie Colarusso. Her boy baby was born just 24 hours before the attempt on his and his mother's lives. The exploding bomb threw them out of bed on the floor where they were covered with plaster and falling debris. They were hurried to a hospital.

Fifty inmates of the house rushed to the streets in terror when the explosion took place. Antonio Colarusso, a retired wine and olive merchant, husband and father of the victims told the police he had received letters signed by the Black Hand demanding money.

## USE TIZ—SMALLER FEET

Sore Feet, Tender Feet and Swollen Feet Cured Every Time. TIZ Makes Sore Feet Well, No Matter What Ails Them.

Everyone who is troubled with sore, sweaty or tender feet—swollen feet—smelly feet, corns, calluses or bunions can quickly make their feet well now. Here is instant relief and a lasting, permanent remedy—it's called TIZ. TIZ makes sore feet well and swollen feet are quickly reduced to their natural size. Thousands of ladies have been able to wear shoes a full size smaller with perfect comfort.

It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely clog up the pores. TIZ cleanses them out and keeps them clean. It works right off. You will feel better the very first time it's used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. TIZ is for sale at all druggists, 25 cents per box, or direct if you wish from Walker Dodge & Co., Dodge Building, Chicago, Ill.

**ATTENTION FARMERS.** We have AGRICULTURAL LIME. The great clover and alfalfa grower. The P. SMITH SONS LUMBER CO. 18-Gt. Regulates the bowels, promotes easy, normal movements, cures constipation—Doan's Regula. Ask your druggist for them. 25c a box.

## MANY READY TO ENTER CABINET

Senators and Representatives Would Make Change.

## MUCH VETO TALK IS HEARD.

President Cleveland Rejected Many Bills, but Seldom Advertised His Intentions—Senator Frye's Record in Senate Has Been Beaten, but He Was Lawmaker For Longest Time.

By ARTHUR W. DUNN.  
Washington, Aug. 18.—[Special.]—The possibility that several Democrats of both senate and house may be coiled to cabinet positions in case the Democrats elect a president next year has had considerable to do in shaping the inclinations of men as to candidates. There is a belief among many Democrats that if a man with little Washington experience is chosen he will want cabinet officers who have had experience in the national capital.

This may account for the fact that a number of receptive candidates for cabinet positions seem to prefer Governor Harmon or Governor Wilson rather than Speaker Clark. There are a number of men in public life who would quickly leave either the senate or house for the cabinet.

**Veto and Threats of Veto.**  
President Cleveland sent in as many veto messages as any president, most of them on pension bills. But he did not do very much advertising in advance. During the session of congress there has been more talk of vetoes in advance than even during the Roosevelt administration. It may be that President Taft was not responsible, but the talk emanating from men who assumed to speak for him promised vetoes without limit.

**Longest Continuous Service.**  
While the late Senator Frye had more than thirty years of service in the senate and a record exceeded by very few persons, other men had longer continuous service. Morrill of Vermont and Allison of Iowa were two, and John Sherman had a longer service, but it was interrupted by four years as a cabinet member. Frye had the longest continuous congressional service of any man in the history of the government. He entered the Forty-second congress in 1871 and served in the house until elected to the senate in 1881, going from the house to the senate, where he succeeded James G. Blaine.

**A Wonderful Delegation.**  
The Maine delegation was for many years a dominating influence in congress. In the Fifty-first congress Reed was speaker, Boutelle was chairman of naval affairs, and Milliken was chairman of public buildings and grounds, while Dingley was a force on the ways and means committee. In the senate Frye was chairman of commerce and prominent on foreign relations and other committees. Hale was chairman of census and the dominating influence on appropriations and naval affairs. In the Fifty-fifth congress Reed was again speaker, Dingley was chairman of ways and means, Frye held the same committee positions and was president pro tem of the senate, and Hale was chairman of naval affairs and had reached the point of leadership in the senate. There has been a mighty change in the Maine representation, but it is believed the new men will make their mark if they remain long enough in congress.

**Dillingham's Immigration Bill.**  
Senator Dillingham has given those for and against immigration laws an opportunity to consider during the recess what ought to be done to improve the immigration conditions. His bill is considered drastic by those who want more immigration. Others claim it does not go far enough. It is possible that when the subject comes up for discussion there may be men bold enough to assert that all immigration to this country might well cease and allow those now here to work out the destiny of the country as Americans. I suggested this to the Vermont senator, and he replied, "You couldn't possibly pass any such drastic legislation as that." And he no doubt spoke the truth.

**"Not a Sucker."**  
Jim Mann is not a "sucker"—that is, he is not a legislative "sucker"—although he is a "Sucker" when it comes to giving him a name, according to the nickname of his state. During the consideration of a bill which Mann wanted amended a suggestion was made that all but three sections might be eliminated, which caused the minority leader to remark: "I was not born yesterday in legislation, and I do not think I am quite a sucker. If this bill passed with only one section it would come back in a conference report and be rushed through here like greased lightning in the closing days of the session." And he won his point.

**After Soft Snaps.**  
The attempt to terminate the existence of the monetary commission is said to be but the beginning of a general attack upon useless commissions and offices. The next to be hit is the Canadian boundary commission, which has not held meetings thus far.

**Ask the Baker**  
What he thinks of Marvel Flour.  
Ask the best pastry cook you know, what she thinks of Marvel Flour.  
Ask anyone of the many thousands of housewives of experience who have tried the different brands of flour, what she thinks of Marvel Flour.  
Ask your doctor what he thinks of the healthfulness of Marvel Flour.  
Ask your grocer what he thinks of Marvel Flour.  
Ask the multitudes who have enjoyed the good things made from Marvel Flour, what they think of it, and hear them all acclaim with one grand burst of unanimous applause—

## THIEF MAKES GOOD HAUL IN COSHOCTON

Coshocton, O., Aug. 18.—The residence of Marion F. Patterson, who is connected with the Centennial Bottling Works of this place, was entered at an early hour Thursday evening and it is claimed that \$655 in bills were taken from a sideboard in the dining room. The loss was discovered between 5 and 6 o'clock. At that time Mrs. Patterson and her sister, Mrs. Floyd Shaffer, who were putting down a rug in the front room had their attention attracted into the dining room by a noise, and upon entering the room found a mysterious stranger in the room. The stranger is said to have asked for a drink, and when told he was in the wrong place, left. It is claimed that after he left the drawer in the sideboard was found open and the money missing, \$18 in silver and \$290 in checks were overlooked by the man. The police are working on the case.

# Daddy's Bedtime Story

Spider Best Friend of Astronomer—Helps Weigh the Sun

Best Way to Get Weight of Sun is by Threads of the Spider

"WHAT'S the matter, dearie?" asked daddy as Evelyn shivered a little bit when he drew her mosquito netting shut and kissed her good night.

"Oh, it's nothing, daddy," answered Evelyn. "And I'm really ashamed to be such a baby. But a horrid spider got on my dress this afternoon, and I've felt creepy ever since."

"I'm surprised at my bright little girl," said daddy. "Silly folks give all their sympathy to the fly, which kills more persons in the year than all the tigers and wolves and snakes and sharks put together."

"But, while the fly is of no use to himself and in fact a danger to everything else, the spider happens to be of the greatest use to those greatest of scientific men, the astronomers. Do you know what an astronomer is, Jack?"

"Yes, sir," replied the boy. "There's one that stands at the corner of the square every clear night with a long telescope on three legs and sings out: 'Here you are now! All the glories of Venus, Mars and Jupiter, only one cat!'"

"Well, you can hardly call your friend an astronomer," laughed daddy, "but he does the best he can to spread the wonderful story of the heavens."

"Now, what do you suppose the little spider does for the big astronomers?" he asked.

Both children gave it up.

"He lends them a little piece of the thread of his web," said daddy, "so that they may weigh and measure the sun."

"Oh-h-h, daddy!" booted the children.

"All right," said daddy, pretending to weep: "If my own little children won't believe me I'm going to run away from home and sell peanuts for a living."

"Oh, daddy," they exclaimed. "Stop teasing and tell us all about it!"

"Well," said daddy, "astronomy is arithmetic. Not 6 times 8 means 48, but says that would make me dizzy even to look at them. And to start these sums the first measurements must be exact. Where the astronomer puts his eye to his telescope there are two lines crossed exactly, but for hundreds of years nothing could be found fine enough and smooth enough for this exactness."

"But one day somebody tried a spider thread, and all the trouble was over. Just think, it takes 7,000 of these threads to make up the thickness of an inch, and yet each one is so strong that even when the fierce sunlight breaks the glasses in the telescope the threads are uninjured."

The boy was brought before the judge several weeks ago when the judge gave him a good lecture, and on promise to behave himself let him go, but promised to punish him should he be brought before him again. Thursday he was brought in again on the same charge and the court sent him to the Boy's Industrial School at Lancaster.

**Bennett Reunion.**  
One of the most interesting reunions to be held will be that at Lee's Summit, Mo., August 28, when the five Bennett brothers will meet there. The brothers, who are Westerners, comprise one of the most remarkable families anywhere in point of age, the oldest being 409 years, an average of 82. They were all born on the old Bennett farm, one mile west of Prazeysburg, also one sister who died two years ago.

**Early Fall Millinery.**  
Miss Marie Clouse of Clouse and Schauweker, returned home from Cleveland last night, where she has been attending the wholesale millinery openings. She wishes to announce to her patrons that to-morrow Saturday, August 19th she will have a beautiful display of white fur and felt hats, also light blue, pink, brown, tan and green shades. These hats are just the thing for your outing or vacation. Call and see them tomorrow. Clouse and Schauweker.

**Robertson Reunion.**  
The recent reunion of the Robertson families held at Lyons' Lake, was attended by 93 persons, who enjoyed to the utmost the pleasures of the day. Mr. Lyon had prepared a long table in the grove to accommodate all at the dinner hour. After a pleasant day all departed for their homes, to meet again at the same place next year. Officers were elected as follows:

**CONSCIENCE.**

**By taking Lydia E. Pinkham's Vegetable Compound**

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

**Here is her own statement.**  
Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

**If you are ill do not drag along** until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

## GLORIOUS HAIR

To Possess It Every Woman Must Get Rid of Dandruff.

Dandruff is caused by germs; these germs, like into the roots of the hair and voraciously devour the nourishment that nature intends the hair to have.

Allow these destructive and persistent little devils to keep feasting and soon the hair of any person will lose its natural life and lustre, will fade, turn gray and fall out.

A fifty-cent bottle of Parisian Sage (now sold all over America) will kill more dandruff germs than any other known agent.

It is guaranteed to banish dandruff, stop falling hair and itching scalp, or money back. Sold by Evans' Drug Store and druggists everywhere.

## BRIDE OF SIX DAYS ELOPES WITH NO. TWO

Zanesville, Aug. 18.—A honeymoon which began six days ago was abruptly terminated by the alleged elopement of the bride Wednesday, according to the story told by Charles Wisecarver to the police when he requested them as well as Sheriff Frick to locate the fleeing wife, if possible. With his wife Wigearver told the police, went \$10 in money and some valuables.

The couple was married on August 9, in the probate court room. She was formerly Miss Lulu Stotts.

Those touching words of the popular song, "When I Woke Up This Morning She Was Gone," would most appropriately fit this groom's case if only his wife had left him six hours earlier. She waited until afternoon.

The groom of a week ago had all the police in town and Sheriff Frick looking for his bride Wednesday night. He said, his wife and her companion; in eloping, had taken his grip, watch fob and his \$10. Now he wants the couple arrested for stealing from him and he wants her companion arrested for breaking up his home. He ran breathlessly into police station to make a report of the affair early Wednesday evening and he was hot on the trail of the couple all night. One time he thought he had the man located in a box-car in the railroad yards. Another time he thought they had gone to Canton.

The domestic difficulties between the couple began shortly after the ceremony when the husband took his wife to his father's farm near Adamsville. "Now get to work and keep house for us," the new husband said to her. It is claimed. The father is 72 years old and rather infirm, it is stated.

The bride looked the place over, and declined to live there, so the honeymooners came back to town.

They secured rooms. The husband secured a job in a brick yard and at 10 o'clock Wednesday morning his wife brought him his dinner. When he came home that evening "she was gone."

Neighbors told the husband she had left the house at 1:20 p. m., to be exact, with another man, he told the police. Ever since then the husband has been looking for her.

"I wouldn't live with her if she did come back now, but I certainly want revenge on both of them," the new husband said when he reported the case.

**USES OF SOAPSTONE.**

**Large Quantities of Talc Employed in Industry.**

A new record was made in raising the annual production of talc or soapstone in the United States to 150,716 short tons in 1910, an increase of 16 per cent in quantity and 30 per cent in value compared with the production in 1909, according to J. S. Diller of the United States geological survey.

Talc is usually marketed in the rough from the mine, sawed into slabs and made up into manufactured objects such as laundry tubs or ground into powder. In 1910 60 per cent of the talc was ground and 21 per cent made into slabs and manufactured. The product of New York is practically all ground.

Vermont ranks second and produces both ground talc and soapstone. Virginia, the third in rank, produces some ground talc, but a large amount of soapstone, in the production of which it outranks all other states.

Most of the ground talc is used in the manufacture of paper of various kinds, especially building paper. It finds application also in the manufacture of molded rubber forms and as foundry facings and paints. It readily absorbs grease and is used to remove spots from silk and to bleach cotton goods. On account of its slipperiness, one of its most important properties, it is widely used to lessen friction, and for this purpose it is dusted into gloves and shoes and blown into conduits to ease the introduction of electric wires or other conductors. One of its widest applications is in toilet powders, most of which are made from high grade talc imported from Europe.

Laundry tubs, griddles, foot warmers and many other similar utensils are manufactured from soapstone. The higher grades of massive talc, free from flaws, are sawed up to make pencils or crayons, French chalk, gas tips and other special articles.

Germany has more than 500 music schools. Nearly one-third of them are in Berlin.

CHARLES C. LEMERT,  
Superintendent of Insurance.

## NOTICE OF APPOINTMENT.

## VALUES OF CORPORATION PROPERTIES

Columbus, Ohio, August 18.—Farmers and small home owners heretofore have paid more than their just portion of the tax burden, because public service corporations and owners of personal property paid much less than they should. Corporate property was appraised for much less its true value than was the farmers; while millions of dollars was kept in hiding.

Appraisements of the property of public service corporations being made by the state tax commission in Columbus demonstrate how unfairly the farmer and small home owner were dealt with in former administrations and how leniently tax laws were enforced against corporations. The latter, by the way, paid most of the Republican campaign contributions. Here are some valuations of gas properties, showing increases:

Consolidation of Newcomertown, former, \$2,480; new, \$35,000.  
Mall and McConeville, former \$24,000; new, \$90,000.  
Harrison Light and Fuel of Cadiz, former \$1,760; new, \$8,000.  
La Belle Oil and Gas of Steubenville, former \$10,670; new, \$70,000.  
Kilbuck & Millersburg Oil and Gas former \$7,677; new, \$38,000.

The valuation of property of the Consolidated Gas Co., of Newcomertown, has been increased 15 times by the State Tax Commission. Under the old regime no real estate owner ever had his property appraised at such a ridiculously low figure.

The millions of dollars of increases being made by the Tax Commission to corporate property in every county of the state, means a benefit to the individual property owner.

In Cincinnati, real estate owners already feel the benefit of the vigorous search that is being made for corporate and personal property, although work on the tax duplicate has not been completed. In 1910, Cincinnati real estate owners bore 78 per cent of the total taxes and personal property bore 22 per cent. Already figures have been obtained showing that real estate and personal property owners will pay equal amounts under the one per cent tax law and new appraisements. That will be true all over Ohio. The first payment of taxes under the new law will be made next December.

Carnegie Company  
Operating 82 Per Cent

Cleveland, O., Aug. 18.—The Iron Trade Review today says: "General market conditions are somewhat quieter than last week. Orders for finished steel products for forward delivery show a decline as compared with 15 days ago, but there is a fair volume of business being entered for immediate rolling and the market as a whole apparently has not lost any important ground during the week. There has been a still further increase in steel works and blast furnace operations in the western Pennsylvania territory. The Carnegie Steel Co., this week is operating at 82 per cent of its ingot capacity. The company is now operating to greater capacity than at any time during the year, and reports a gain of 30 per cent in mill orders for rails and semi-finished steel for the first 15 days of August, as compared with the corresponding period in July. A decided gain is also shown in mill orders for plates and structural steel. Prices on finished steel products are not any firmer, although shading is not more general than last week. A decided improvement in orders and specifications for sheets is noted, but prices are still weak."

## GRANVILLE

Granville, Aug. 18.—Mrs. Irene Bossey Birtchett, a well known woman of this place, died at her home in North Granger street, on Wednesday evening at 6 o'clock, after an illness of several weeks. The deceased was born on January 13, 1861, and was therefore aged about fifty years. She was a daughter of the late Henry Bossey, an old resident of Granville, now deceased some years. She was a most estimable woman and had many friends who will regret to learn of her death. She is survived by two daughters, Miss Flossie Birtchett and Mrs. Minnie North of Delaware, and five sons, Judson of San Diego, Cal., Windsor of Detroit, Henry, Harold and Guy of Granville. The funeral services were held at the late home of the deceased on Friday afternoon, and the interment was made in Maple Grove cemetery.

Many Granville people will be interested in learning that Mr. and Mrs. Harry S. Lewis, who have been making their home in Chicago for some time, have moved to Toronto, Canada, where Mr. Lewis has a fine business. Mrs. Lewis will be remembered by many here as Miss Grace Gutches, who attended Shepardson college for three years. Their present address is No. 28 Dunbar road, Toronto, Canada.

The members of the Unity club will hold their next meeting with Mrs. Frank Jones on Tuesday, August 22.

Mr. and Mrs. F. B. Mason and little son, Clyde of Springfield, O., who have been making a short visit here with friends, returned home Friday.

Miss Flavia Dunston has returned home after a pleasant visit with Mr. and Mrs. Joseph Rice, at their home in Johnston.

Dr. A. S. Carman, formerly connected with the faculty of Denison university for many years, but who for the past two years has been filling the pulpit of the Baptist church in Marietta, one of the largest in that part of the state, has been enjoying his annual vacation in Northport, Mich. This season there has been quite a colony of Granville people at this popular resort. Quite a number have returned to their homes, but a number still remain, among them being Dr. Carman's family, Mrs. H. R. Hundley and children, Miss Laura B. Parsons, Miss Marion Rose, Mr. George E. Stevens and family and Mrs. Franklin W. Sweet and children. There are also a number of the faculty families of the State University of Lawrence, Kansas, there at present.

For some time a number of improvements in the Shepardson dining hall have been making, and they are now complete. It is thought that there will be seating capacity for at least 100 more people than formerly. The improvement has been made just in time to accommodate the delegates to the Young Women's Christian Association convention, which will be held here.

Edward Starnor and two children, who have been visiting his father-in-

law, Henry Williams, have returned to their home in Shawnee. While here Mr. Starnor was seriously ill, but since he has returned home has made rapid improvement. Mr. Starnor is superintendent of the Shawnee Brick Works.

Miss Blanche Loveridge, Miss Anna Peckham and Miss Catherine Courtney have returned from their vacation.

One of the largest and most enjoyable family reunions that has been held in Licking county thus far this season was the annual reunion of the Price family. This is one of the largest families in the county and the reunions have always been largely attended. The reunion was held Thursday at the old home in the Welsh Hills and there was an unusually large attendance. The day was pleasantly spent by both old and young, and all had a fine time. The main feature of the occasion was the splendid dinner that was served at one o'clock.

While there are no holidays in August, every day has seemed to be a holiday in this section, as reunions, picnics and excursions seem to be the daily program.

A special meeting of Center Star lodge F. and A. M. was held Thursday night when the M. M. degree was conferred on one candidate.

The intermediate department of the Baptist Sunday school held its annual picnic at Arbutus Ridge on Thursday. The children and their teachers enjoyed the day very much. They were taken to the grounds and returned home in the evening in large hay wagons. The children of the primary

grade held a picnic on College Hill the same day.

Mrs. Lull and daughter Evaline of California, are visiting her father and sister, Mr. John Akins and Miss Lou Akins at their home in Centerville street.

## HYDROPHOBIA FROM BITE 5 YEARS AGO

New York, Aug. 18.—Barking and frothing at the mouth, Mrs. Amanda Irwin, confined in the psychopathic ward of Bellevue hospital is today suffering from one of the worst cases of hydrophobia that ever came to the attention of the hospital staff. It was five years ago that Mrs. Irwin was bitten by a dog now supposed to have been rabid, but it was not until a few days ago that she developed symptoms of hydrophobia. She was attacked in the night, her screams arousing a whole city block and when she was removed to the hospital, was in a state of collapse from hysteria.

## DUCKS GOT "SOUSED" ON ROTTEN APPLES

Girard, O., Aug. 18.—Anson Jones, a farmer, threw a lot of rotten apples into the duck yard. The fowls ate freely and an hour later Jones found them rolling on their backs and making a terrific "cackling." They were gloriously intoxicated. He revived them from the effects of the permeated apple juice by throwing cold water on them.

## VALUES ARE BEING BOOSTED FOR TAXATION

The Newark Board of Review is not the only one in the state that is boosting the personal property duplicates.

For some time the local board, composed of Messrs. W. H. Anderson, J. W. Horner and E. S. Randolph, has been busy going over the personal tax returns and taking steps to see that proper additions are made. The board has published a number of notices calling the attention of the people to the law governing the situation, and has made it plain that it will be well for people to make a full return of their personal property, including money and credits. As a result of the campaign thousands of dollars have been voluntarily added to the duplicate. Every day people are calling at the Board of Review's office in the basement of the court house, and they are giving in for taxation property that was not listed with the assessors. The one per cent law is bringing out much hidden personal property and the board is endeavoring to make the personal property bear its just share of taxation. Under the 1 per cent rate the people can afford to list their credits and money, whereas under the 3/4 rate many felt justified in withholding property that was yielding only 4 per cent.

Columbus, Toledo and Portsmouth are making such strides that some have attributed the results to the Billy Sunday evangelist campaigns in those three cities, but since others are doing so well the theory has received a decided shock. Portsmouth's board of review was given a 40-day extension in order that it might complete its work. Tax-payers are falling over each other to set down their holdings in that city at augmented figures.

The commission has been so busy or late that it has not had time to go into the question of personal returns in the various cities. The subject may be investigated later, however, when the pile of work incident to the valuation of public service corporations is out of the way.

## TARIFF

(Continued from Page 1.)

on the adoption of the amendments. Senator Cummins, securing the Johnston-Penrose agreement, withdrew his amendment revising the iron and steel schedule. Presto! Hon. Augustus O. Bacon, Senator from Georgia, seized a printed sheet, struck out the name of "Cummins," substituted the name of "Bacon" and offered the identical iron and steel amendment as his own.

The question being upon its adoption, immediately there was a grand exodus from the Republican side of the chamber. There had been a few minutes before whispered consultations among the regulars. Then, as there were vacant seats where 60 seconds before sterling stalwarts had sat one looked down from the gallery and fanned themselves.

Only here and there could one be found, just enough remaining to constitute a quorum. The vote was taken, and the former Cummins, now the Bacon, steel and iron amendments, were adopted strictly by Democratic votes. Senator Cummins and the insurgents and a few regulars voted against it.

The adoption of other amendments was the simplest thing in the world. In the same manner the Overman amendment, revising the chemical schedule, was added to the bill; so was the Simmons amendment respecting cotton manufacturing machinery, and the Reed amendment making a change in the classification of cotton goods.

Deliberation in the greatest deliberating body on earth was knocked completely out by the action taken and, loaded down by revision amendments the cotton bill of the house passed the senate. The rates of the cotton schedule are substantially as those in the house bill, and the impression is that the house will agree to the Senate amendments regarding iron and steel.

The insurgents, taken completely by surprise, were thrown into a rage. Alternately they denounced the treachery of the Democrats with whom they had been in alliance and inveighed against the regular Republicans for the part they had played in the new combination which had brought about the revolution in the senate as startling and sensational as the coalition which earlier had robbed the regular Republicans of their supremacy in the upper house of Congress.

## HEISEY COMPANY SUES TO PROTECT

Columbus, Aug. 18.—Claiming that the defendant had infringed its patent on a molasses pitcher, the A. H. Heisey Company of Newark, filed a bill of complaint against the Hooking Glass Company of Lancaster in federal court yesterday. The plaintiff asks that a writ of injunction restraining the defendant from manufacturing its pitchers be issued and that three times the amount of actual damage sustained by it be assessed.

The Hooking Glass Company, which was taxed on a valuation of \$11,000, has been raised by the State Tax Commission to \$18,000. President Sperry and Secretary House will go to Columbus and make a protest. The company last year received \$21,000 for the sale of glass, and during the time expended \$35,000 to produce the glass. It has drilled several more wells this year, is now drilling and expects to drill still another. Since the Utica Glass interests got control it has paid no dividends, has run in debt, and looks to a layman stockholder as though the sooner a receiver is appointed, the better the chance of stockholders to see anything. The losses of the company come from the furnishing of gas to the Glass company at so much below

## low the cost of production that the profit from domestic service cannot offset it. The company cannot afford to pay tax on \$18,000. Its entire capital stock is but \$10,000 and we believe that stock can be bought away below par.—Utica Herald.

## FREDONIA MASONS HAVE GREAT TIME

The annual picnic and outing given under the auspices of Farmers' Lodge of Masons, at Fredonia, at Cat Run, the beautiful picnic resort, a few miles north of Granville, on Thursday, was the crowning success of all the picnics yet held there. It is estimated that there were in the neighborhood of eight hundred people in attendance, and all had a glorious time. The big feature of the day was the dinner, and it was heartily enjoyed by all. After all had satisfied the inner man, 1211 Long, of this city, called the assembly to order and a delightful program of music and speechmaking was had, addresses being delivered by W. A. Veach, Rev. Joseph A. Bennett and Auditor C. L. Riley, all of Newark. Fine music rendered by the Weltsa Hills band was interspersed between the addresses.

When a fellow is head over ears in debt he doesn't always feel out of sight.

The fellows with money to burn never carry any insurance on it.

Even an exploded theory doesn't always make a noise in the world.

The fellow who never gets to the top is apt to blame it on the elevator.

## STRIKE

(Continued from Page 1.)

900 in Hyde park, 600 are guarding the general postoffice and another 600 are encamped at the Tower of London.

The only London railway station where soldiers are in evidence is Clapham Junction, the center of several suburban lines, where the Scots Guards are picketing.

Elsewhere troops are being moved to strategical points all over the country.

The Government's plans to cope with the strike seem fully arranged. The tunnels and the signal boxes are the chief points which it purposes to protect against possible violence.

The armored cruiser Antrim has been sent to the Mersey to protect the shipping there.

The trains to and from Manchester were generally suspended.

The transatlantic shipping companies plan to coal and victual the liners at American ports for the round trip, but as in the case of the Lusitania, which is scheduled to sail Saturday, but has been unable to obtain a crew or coal, are likely to have trouble in keeping their crews on the vessels until they reach England.

The railroads, the arteries through which the food supplies must pass if the country is to be saved from starvation, are gradually coming to a standstill as the men leave their posts in compliance with the general strike order which was sent broadcast in 1,500 telegrams from the headquarters of the Amalgamated Association of Railway Servants yesterday. It is predicted that the trans-

port of the country will be tied up and that the idle army will number 600,000.

Thousands of factories which are dependent on railroads for material and supplies are preparing to lock their doors. What was primarily a strike of the railway men in sympathy with the dock men has of necessity become a stupendous national tie up of industry.

The situation as regards provisions has reached the stage where it is doubtful if the most drastic measures on the part of the government can prevent an appalling loss of life.

In Liverpool the coal famine has caused hundreds of shops to shut down permanently, and most of the public warehouses are closed.

The hospitals are running short of supplies. Hundreds of infants, many of them the children of the strikers, are doomed to certain death unless coal is supplied to the milk depots maintained by the corporation for the preservation of infant life. Many have closed already.

Seven hundred of the poorest infants of the city are at this moment dependent upon these depots for sustenance. Under conditions that seem inevitable in a few days half of these children will be dead or dying.

How tenaciously the government is clinging to hopes for a settlement of the dispute and is waiting to arrange one was displayed by David Lloyd George, Chancellor of the Exchequer, in a speech in the House of Commons last night which quickly sent abroad the impression that the situation had taken a strong turn for the better and that fears of an immediate strike might vanish.

It is better to be flushed with victory than to be fain-flashed out of it.

## WILL EXHIBIT FALSE MEASURES AT STATE FAIR

Mr. Frank Caine, sealer of weights and measures, of this city, has received a letter from S. E. Strode, state sealer, and F. C. Albrecht, chief inspector, notifying him that the department contemplates exhibiting at the State Fair a collection of false scales, weights and measures from all parts of Ohio. As the fair will be attended by people from all parts of the state this exhibition will have the effect of calling attention to the necessity of appointing sealers and establishing a proper system of inspection. Mr. Caine will send his collection of short measures and scales to Columbus the first of next week.

The government crop report estimates the growing corn crop to be about five hundred million bushels less than last year, and three hundred million bushels less oats. Private reports show that the reserves of old corn in farmers' hands are less than usual. Add to this the tremendous shortage in hay and the situation in feeds will readily be seen. Prices on grain and mill feed will probably be high this winter. Let us figure with you on your winter supply of bran, hominy

feed, dairy feed, gluten feed, oil meal cotton seed feed, etc., in ton lots. We sell all kinds of garden and field seeds and we are headquarters for dairy and rock salt and also handle M. E. Wheeler & Co.'s guaranteed fertilizers. OSBURN & KERR, Office and salesroom, Indiana street; warehouse, O'Bannon avenue. Both phones.

# To The Women

Some women are just a trifle timid about going to a bank to transact business. And why? Simply because they are not familiar with the rules of banking. This shouldn't be so, and, indeed, this isn't so with those who come to this bank, for we aim to make every transaction so clear and so plain, that dealing with a bank soon becomes to them an easy habit.

We appreciate the patronage of women. Their business with us is already large and steadily increasing. If you are not now a patron, then please consider this an invitation to become one.

# SAWED PEDAL STEM TO FREE BOY'S FOOT

Isaac Hay, aged 11 years, residing at 90 South First street, was the victim of a peculiar accident Friday about noon. He was barefooted and was riding his wheel. In crossing the tracks of the interurban road on the south side of the square his wheel slipped and he was thrown. In falling his left foot was caught between the frame of the wheel and the pedal stem and he was unable to get it out. A large crowd, numbering more than a hundred people, quickly gathered, and all kinds of suggestions were made, but to no effect. Finally the services of George Streams were secured, and he saved the pedal loose from the foot. The boy was then taken to his home.

# OBITUARY

**MRS. SARAH MORGAN.**  
Mt. Vernon, Aug. 15. Mrs. Sarah H. Morgan, widow of the late Gen. George W. Morgan, died at 3:45 Wednesday morning at the home of her daughter, Mrs. John Coile, in Detroit, Mich., where she had been staying for some weeks. Death was due to ailments incident to old age. She became ill shortly after going to Detroit, and two weeks ago her condition became such that her death had been anticipated since that time.  
Mrs. Morgan, who was about 84 years of age, was a native of Zanesville, but she spent the greater portion of her life here. Her maiden name was Hall.  
Her husband was a brother of Wm. D. Morgan, who was at one time owner of the Newark Advocate.  
Three daughters, Miss Kathleen, who is an inmate of the Ohio State hospital at Columbus, Mrs. H. D. Coffinberry of Cleveland, and Mrs. Coile of Detroit, survive.  
The deceased was a member of St. Paul's Episcopal church. In early years she was very active in the interests of the Mexican war veteran's association, in which her husband was prominent.  
Upon the occasion of the annual convention of Mexican war veterans in Newark in June, she extended an invitation to the veterans to meet next year at her Mt. Vernon home.

**CARD OF THANKS.**  
We wish to thank our many friends for their kind services and beautiful flowers at the death of beloved husband, brother and father. We thank especially the pastor, choir and pall bearers.

# CONTRACTORS ARE GIVEN BIG BANQUET

Tuesday evening a social affair was pulled off at the Licking County infirmary about one half mile from Union station. Messrs. Moore and Woolway finished their contract on the building of a veranda on the west side of the main building, which adds much to the architectural beauty of the building. As an appreciation the matron, Mrs. Collins, resolved to tender the workmen a dance. The colored orchestra of Granville was secured and a splendid time was had, and at a late hour refreshments were served, and in the wee small hours all departed for their homes ever praising the superintendent and his wife and the matron for an evening's enjoyment of rare pleasure.  
The feature of the occasion was the tripping of the light fantastic toe by "Uncle Sam" Woolway. The veranda is a splendid addition to the building and too much credit cannot be bestowed on the "two old boys." Sam and Russ, who were the contractors.

# FRAZEYSBURG HAS BIG HOME COMING

Friday was a great day for our neighboring town of Frazeysburg. It was home coming day, and large numbers of people from all over the state, who formerly lived there, or who have friends there, journeyed to the old town. Reports from there this afternoon say that the place is filled with people, and that the largest crowd in the history of the place, is assembled there. In the neighborhood of one hundred persons went down from this city on the early morning Pan Handle train.
